Mustang® Seats

After 30 years in the motorcycle seat business Mustang® knows what it takes to make a seat comfortable over the long haul. They start out by building their own baseplate which helps align the spine and place the driver at the proper riding angle, thereby relieving back stress. Next, each Mustang® seat is designed using special controlled-density foam, which provides the basis for its comfort. Finally it is covered using only the highest quality expanded vinyl available with all seams double-stitched for strength and durability.

7. DayTripper™ Seats

Mustang's® advanced comfort technology has been incorporated into this new style of custom seat. Ride low, look cool and still be comfortable at the end of the day's ride. The detailed stitch work in the highly durable, synthetic glove-leather cover makes the DayTripper™ seat a real show winner. Never before has such a low and lean seat been available that feels this good for both the rider and the passenger.

STR-OSS56-10-97 \$99.99

4. Magnum™ Plus Mirrors

Magnum™ Plus Mirrors feature a stem that moves the mirror head outward 2" farther than the Magnum™ Mirror. In addition to the standard flat glass, which allows a larger image but a narrower field of view, a convex version is also available. The advantages of convex, reduced image mirrors are two-fold: first, one has a wider field of view with this style mirror, although the image you see does appear smaller, or farther away. Second, vibration has less of a distorting effect with a convex mirror. All Magnum™ Plus Mirrors are beautifully chrome-plated.

(Mirrors sold individually.)

Avon®

Avon® proudly introduces its line of premium grips for the metric cruiser market. Handcrafted in the U.S.A., Avon® grips are made of Kraton® rubber and feature a soft, serrated texture that makes it easy to hold on. The end caps and collars are machined from billet 6061 aluminum, polished then finished in either chrome or black anodize. All of Avon's® new metric grips also feature a very unique, patent-pending throttle sleeve that comes complete with interchangeable throttle cams allowing a single set of grips to have multiple fitments, eliminating the need for excessive dealer inventory.

6. Air Cushioned Touring Grips

“Air ride for your hands!” These grips feel great and are very functional too. Manufactured in the U.S.A. with a special core bar that creates air pockets inside the grip body. These air pockets dampen vibrations, help eliminate the tingle in your hands, and soften the overall feel of the ride. The soft, serrated texture on the grip surface helps you hold on to your bike with confidence. The grips are finished off with only the best 6061 billet aluminum end caps and collars.

Star Custom Accessory Windshields

Our tough polycarbonate windshields not only offer the superior fit and finish you would expect, we went a step further by treating them with the new-generation Quantum™ Coating to provide a long lasting, durable, protective finish. This makes the windscreen three times more scratch-resistant than typical acrylic products, and also much more resistant to damage from bugs, stone chips, road grime, or even everyday cleaning. This extra attention to detail will help keep your windshield looking new longer, and that's a clear benefit you'll enjoy on every ride.

3. Quick-Release Wide Windshields

These "fat" screens are 3" wider than the standard Silverado windshield. The unique, patented quick-release feature lets you match a change in weather or attitude before you ride. A lock is included for added security. Windshield mounts (STR-5VN03-40-00) required on Road Star models. Windshield mounts sold separately.

NOTE: If switching from standard width to wide width replacement windshield, cable guide (STR-5VN03-22-00) required for installation.

6. SwitchBlade® 2-Up® Windshields

The largest of the SwitchBlade® windshields, this generous screen offers maximum protection from wind and weather for both you and your riding partner. Many riders purchase windshields primarily for wind protection, and the 2-Up®, like all SwitchBlade® windshields, features high-quality chromed steel and stainless steel hardware. Best of all, its sturdy 4.0mm thick polycarbonate has National Cycle's® exclusive Quantum™ hard coating for the ultimate in scratch resistance. All National Cycle® polycarbonate windshields are covered by a 3-year limited warranty against breakage.

NOTE: SwitchBlade® Quick Release Mounts are required for installation and sold separately (see page 1-143).

1. SwitchBlade® Chopped™ Windshield

Is the 2-Up® too tall? Shorty™ too short? The new SwitchBlade® Chopped™ is a cut-down version of the popular SwitchBlade® 2-Up®. The recontoured top is 4" to 5" shorter (depending on model) and the trimmed bottom profile is narrower. Get all the protection you need and the look you want. All National Cycle® polycarbonate windshields are covered by a 3-year limited warranty against breakage. NOTE: SwitchBlade® Quick Release Mounts are required for installation and sold separately (see facing page).

2. SwitchBlade® Shorty™ Windshield

The smaller screen of the Shorty™ windshield is an ideal choice for a rider who generally does not put long hours in the saddle. Short in size but long on looks and quality features. The Shorty™ keeps the windblast at bay while preserving the “wind in your face” motorcycling experience. All National Cycle® polycarbonate windshields are covered by a 3-year limited warranty against breakage. NOTE: SwitchBlade® Quick Release Mounts are required for installation and sold separately (see below).

3. SwitchBlade® Quick-Release Mount System

Strong, sleek, elegant, and functional! This system secures your SwitchBlade® windshield with bulldog tenacity, but is attractive and refined when the shield is off. Our innovative Cushion Wheel spools turn and flex, allowing the shield to lock into place with a reassuring “pop.” Want to remove or change the shield? A gentle tug is all that’s needed. Each SwitchBlade® windshield and Mount Kit is model-specific. These are not universal fitments that work fine on some models and work poorly on others. When you order the SwitchBlade® Mount Kit and any SwitchBlade® windshield for your motorcycle, you can be sure it will fit like it was custom made for your bike – because it was!

1. Cruise Series Windshields

The Cruise Series Windshields from Sportech offer good wind protection without compromising your bike's appearance. We've streamlined the necessary mounting brackets and excess hardware, eliminating the typical crossbars to minimize the visual impact the windshield makes on your bike. The result is a lighter weight windshield with less cumbersome hardware. Keep the focus on your bike where it belongs, not on the windshield. A line of premium windshields packed with features never before available to the cruising rider:

- Custom-molded from premium Lexan® polycarbonate with FMR hard coating
- 20X the impact-resistance and abrasion resistance of acrylic (Lucite®)
- Patented toolless quick-release mounting hardware allows installation and removal instantaneously
- Premium stainless steel hardware has a brilliant, highly polished finish
- All that remains on the bike when the windscreen is removed are two small polished stainless steel handlebar mounting clamps
- Available as a Low height (15" x 14") in clear and smoked tinted, a Medium height (20" x 19.5") in clear and tinted, and a Tall height (22" x 23") in clear
- Profiles engineered to offer excellent head and chest protection from wind and debris, while maintaining a sleek, unobtrusive look
- Exclusive limited lifetime warranty against cracking and breakage

1. Expandable Custom Cover

This unique and versatile cover incorporates expandable windshield and backrest pockets to accommodate everything from a stock Road Star to a fully accessorized Silverado, yet maintains that custom-fit look. The top half uses premium Evolution® IV fabric that is breathable, water-repellent and UV-resistant. The bottom half is constructed of duck canvas for heat protection against exhaust pipes. Both materials provide excellent outdoor protection. (Not recommended for trailering.)
